

# TenderFlow

Professional Tender Management Platform - UI Mockups

## Tender Lifecycle Workflow

## Smart Inbox

Automated tender discovery and organization with AI-powered categorization and filtering capabilities.

### INTERACTIVE

- ✓ Real-time tender scraping
- ✓ Smart filtering & search
- ✓ Bulk actions & tagging
- ✓ Priority scoring

## AI Validation

Intelligent data normalization and field completion with confidence scoring and manual override capabilities.

### INTERACTIVE

- ✓ AI-powered data extraction
- ✓ Confidence scoring
- ✓ Field-by-field validation
- ✓ Manual override controls

## Auto-Categorization

Machine learning-powered tender qualification with customizable scoring criteria and decision workflows.

### INTERACTIVE

- ✓ ML categorization engine
- ✓ Custom scoring criteria
- ✓ Decision workflows
- ✓ Team collaboration

## Real-time Alerts

Configurable notification system with multi-channel delivery and escalation rules for critical deadlines.

### INTERACTIVE

- ✓ Configurable alert rules
- ✓ Multi-channel notifications
- ✓ Escalation workflows
- ✓ Deadline tracking

## Document Management

Advanced document processing with OCR capabilities, version control, and collaborative annotation tools.

### INTERACTIVE

- ✓ OCR document processing
- ✓ Version control system
- ✓ Collaborative annotations
- ✓ Template management

## Bid Workspace

Collaborative proposal development environment with real-time editing, task management, and progress tracking.

### INTERACTIVE

- ✓ Real-time collaboration
- ✓ Task management
- ✓ Progress tracking
- ✓ Resource library

## Submission Portal

Multi-channel submission management with automated tracking, compliance checking, and receipt confirmation.

### INTERACTIVE

- ✓ Multi-channel submissions
- ✓ Compliance checking
- ✓ Automated tracking
- ✓ Receipt confirmation

## Outcome Management

Comprehensive win/loss analysis with performance metrics, feedback collection, and continuous improvement insights.

### INTERACTIVE

- ✓ Win/loss analysis
- ✓ Performance metrics
- ✓ Feedback collection
- ✓ Improvement insights

## Analytics Dashboard

Advanced analytics and reporting with customizable dashboards, predictive insights, and export capabilities.

### INTERACTIVE

- ✓ Customizable dashboards
- ✓ Predictive analytics
- ✓ Performance forecasting
- ✓ Export capabilities

Built with modern web technologies • React, Next.js, Fastify, PostgreSQL, Redis

Complete tender management solution with multi-tenant architecture
